Safety Score	C	C		A	B	

- The four Norton Hospitals are combined in this table as their scores were virtually the same. (See discussion in text.)
- Δ = change from November to May. A positive number indicates improvement.
- Green indicates best score of group and/or in Louisville where one is better than others.
- Red indicates worst score of group and/or in Louisville where one is worse.
- ' NA' = no score available.
